Health

The Brampton Civic Hospital is a 1.3 million square-foot, 608-bed facility with 18 operating rooms.

It is a full-service community hospital with specialized services including critical care, cardiology, kidney care, diabetes care, and mental health and addiction services.

The hospital can accommodate 90,000 emergency visits, 160,000 ambulatory care visits and 4,250 births each year.
